

Strength Comes

Not From What You Eat, But From What You Digest.

A Tablet Digests a Meal. Trial Package Free.

Most people eat most foods without discrimination. It matters little what they eat. This is the first turn on the road to dyspepsia. Reckless disregard of the proper choice of foods, rapid eating and improper mastication, are the unquestioned causes of all stomach disorders from the slight ache to the malignant cancer.

There is nothing more revolting than a dyspeptic stomach—a very vat for putrefaction, sending forth its poison throughout the entire system, depressing the brain, befouling the breath, souring the taste, deadening the muscles, incapacitating the liver and kidneys for their work, debilitating the heart, choking the lungs and clogging the bowels.

All of these disagreeable and dangerous conditions are due to the improper digestion of food and the consequent assimilation of poison. What else can be expected? If the food lies in the stomach, if the system is constipated, fermentation is the natural outcome. It shows itself in sour watery risings, belching, heartburn and painful breathing.

There is only one way to relieve this condition. If the stomach refuses to digest your food put something into it that will. Stuart's Dyspepsia Tablets are nothing but digestives. They are not a medicine. They work when the stomach will not.

Each tablet contains enough pepsin, diastase, golden seal and other digestive elements to reduce 1000 grains of ordinary food to the proper consistency for assimilation into the blood.

Stuart's Dyspepsia Tablets are absolutely pure. There is nothing harmful in them as shown in their endorsement by 40,000 physicians in the United States and Canada.

Ask your family physician his opinion of Stuart's Dyspepsia Tablets and if he is honest toward you he will state positively that they will cure your stomach trouble whatever it may be, unless you have waited too long and have allowed your disorder to develop into cancer.

Act today and begin to end your suffering. A free trial package will be sent to your address upon request. The 50 cent size packages are for sale at your druggists. F. A. Stuart Co., 150 Stuart Bldg., Marshall, Mich.

WEDDING EPIDEMIC AMONG THE APACHES

Sixteen Indians Married in One Day at Roosevelt by Lutheran Minister.

Globe, Ariz., Jan. 9.—The Apache Indians of the Roosevelt community are acquiring the matrimonial habit in wholesale lots. In one day 16 Apaches have been made eight in the eyes of Cupid by Rev. J. S. Harders, of Globe, superintendent of the Lutheran mission work among the Apaches. Two services were held at Roosevelt by Mr. Harders and at each service four couples were married. The services were attended by large numbers of Indians and a goodly number of white people.

Miss Margaret Bingham, teacher of the Roosevelt Indian school, presided at the wedding of a pair of Apaches, and music for the two services was supplied by pupils of the Indian schools.

HUDSPETH TO URGE MINES FOR EL PASO

Will Introduce Bills Providing for School and Mining Law Changes.

San Antonio, Texas, Jan. 8.—Two bills will be introduced in the thirty-second legislature, which convenes Tuesday, which, if enacted into laws, will give the mining industry of Texas a decided impetus. These bills will be introduced by state senator Claude R. Hudspeth of El Paso. One provides for the establishment of a school of mines at El Paso and the other is one for a new mining law that will take the place of the mining law already on the statutes.

While in the city on his way to Austin, accompanied by his family, senator Hudspeth expressed himself as confident that the legislators will recognize their value to the state sufficiently to pass them. He is determined to have these bills passed and says he is going to make a hard fight to that end. "The present law is altogether inoperative," said he. "It forces a man to pay too much for the sake of prospecting on government lands, and what I want is a law modeled after that of Colorado. There they have a law calculated to promote instead of hinder the mining industry. If I can get this measure through the legislature and make it a law it will mean such activity in the mining business as this state has not before seen. There are a lot of people who never think of Texas as a state offering any possibilities for the miner, but they forget the coal and the oil and even a few metals and minerals that now are almost unsought, due largely to the difficulties thrown up by the mining law now on the books. There is wealth beneath the government land surface, and if I can get this bill through we will see a lot of it brought to the top."

Regarding the school of mines, senator Hudspeth says that El Paso is the logical point for such an institution on account of the great mining corporations having their headquarters there and because assays from west Texas and Mexico are taken there and also because what is said to be the largest smelter in the world is located there.

Another bill in which senator Hudspeth is interested is the one to place a bounty on the scalps of coyotes, wolves and all sorts of predatory beasts, which is being fostered by the goat and sheepmen of Texas, headed by Capt. R. L. Crouch, of Corpus Christi. Senator Hudspeth was called upon during his stay here by a committee headed by Capt. Crouch and stated that the bill would receive his hearty and earnest support.

NEW EL PASO CASES

FILED IN APPELLATE COURT

San Antonio, Texas, Jan. 8.—Now cases on appeal from El Paso have been filed in the fourth court of appeals as follows:

R. L. Samuel vs. S. F. Brewster.
Samuel Lefkowitz vs. H. J. Sherwood.
Appellant's motion to strike out appellee's brief has been submitted in the case of Rachel Walensky vs. A. Schwartz et al. on appeal from El Paso.

EL PASO BASKET IS USED FOR A MODEL

Calendars Issued by Santa Fe Bear Picture of Harvey House Curio.

Back in one corner of the Harvey curio shop at the union station is the best known Indian basket in the world. Its outline and symbolic Apache pattern is known from end to end of the country and its face is hanging on the walls of thousands of offices and homes throughout the United States.

Following its custom, the Santa Fe railroad is issuing attractive calendars for 1911 in the form of an Indian basket with the well known trade mark of the railroad on its front. The original of this Indian basket is the one in the El Paso Harvey house. When the Santa Fe artists were asked to submit sketches for the new 1911 calendars, the Fred Harvey company managers were requested to have their best Indian baskets photographed and the pictures sent in for the artist to decide which was the most artistic. The El Paso basket won over all other baskets and its graceful outline was used for the new calendars.

The basket is reproduced in colors on the calendar and has the Santa Fe trademark across the front in red. The Santa Fe system has distributed thousands of these advertising calendars throughout the country where the Santa Fe system operates. When the first calendar was received in Chicago the supply was exhausted at once and the demand for the Indian basket calendars has exceeded the supply since they were first distributed. The local office of the Santa Fe received 3000 of the calendars and these have been distributed.

The original was made by the Apaches on the White Mountain Apache reservation near Globe, Ariz. It is valued at \$150 and is one of the finest that has been made by the southwestern Indians.

MAN DECAPITATED; IDENTITY UNKNOWN

Former Tucson Man Says Report of His Death Is a Mistake.

Tucson, Ariz., Jan. 8.—The coroner's jury has been unable to determine the identity of the man found decapitated near the Southern Pacific track, 25 miles east of Tucson. The verdict of the jury was that the man had been run over by a train. There was nothing on the dead man to give a clue to his identity.

Charles H. Filkins, formerly of Tucson, who is now an alderman in Bradford, Tenn., has written to Bert Higgins that the report of his death is evidently a mistake, as he is well and hearty. It had been reported around here that Mr. Filkins was dead.

The Tucson Electric Light company will enlarge its plant and has decided to issue bonds to the amount of \$15,000 for that purpose.

The case of Charles Bent and A. B. Sampson against L. C. Hughes to restrain him from voting 200,000 shares of Gold Bullion stock in the annual meeting of the company, has been postponed until Feb. 6. Judge Campbell also ordered the stockholders' meeting postponed until Feb. 10. Bent and Sampson allege that Hughes has no right to vote the stock, which they claim, he holds in trust for the development of the property only.

SELECTS DELEGATE TO CRUCES MEETING

Roswell Plans Keeping Public Library Open at Night for Workers.

Roswell, N. M., Jan. 8.—Mrs. R. P. Johnson has been elected by the Woman's club of Roswell to represent it at Las Cruces, for the purpose of federating the clubs of New Mexico.

An effort is to be made to have the Carnegie library kept open at night, in order that persons who are busy during the day and cannot enjoy its privileges may have the opportunity to go there at night. Miss Maude Tannehill and Mrs. C. E. Mason have been elected as a committee from the Woman's club to confer with a committee from the W. C. T. U. about the matter.

The enrollment of pupils in the Roswell public schools for December was 1942, and the average daily attendance was 1170. The pupils were kept at home with severe colds, of which there has been a severe epidemic. During the month there were 112 visitors.

A new division for the order of railroad engineers, to center at Clovis and extend down the Rio Grande river to the Rio Grande division, is to be formed. E. P. Cooley, of Roswell, having gone to Amarillo in that connection. The matter may take him to Chicago.

DAILY RECORD.

Deaths Filed.

El Paso county—A. M. and Florence Loomis to Loomis Farms company, 235 acre tract 5 1/2 miles below San Elizario; \$50,000; Dec. 23, 1910.

To Robert E. Ebert, American, 1203 Boulevard, girl, Dec. 27.

To Braulio Lopez, Mexican, 1216 Juneteas Alley, girl, Dec. 25.

GREAT INTEREST NOW IN THE FIGHT FOR SENATORSHIPS

Senatorial map of the United States and the prominent figures whose terms expire in March. Beginning at the left are: Senator Aldrich, of Rhode Island; senator Depey of New York, and senator Beveridge of Indiana.

The Political Complexion Is Known, But Personnel of New Senate Unknown.

Washington, D. C., Jan. 8.—The most important political event of the New Year will be the election of United States senators by the various state legislatures to complete the upper house of the sixty-second congress. The new senate will be composed of 51 Republicans and 41 Democrats, as against 58 Republicans and 32 Democrats in the last congress—a net gain of eight seats for the Democrats. (In the house, according to the returns of the election of November 8, the Democrats will have a majority of 65.)

Of 39 senators, whose terms will expire on March 3 next, 24 are Republicans and 15 Democrats, and the various state legislatures elected on Nov. 8 last will choose their successors. There will also be senators chosen to fill the vacancies caused by the death of senator Cummins of Iowa (Republican), senator Thompson of North Dakota (Democrat), and senator Clay of Georgia (Democrat), making a total of 33 to be elected. Of these, 17 will be Republicans and 16 Democrats, representing a gain of nine seats for the Democrats and one for the Republicans.

Where Changes Occur.

The states where the political tugs will fall from Republican to Democratic shoulders are Indiana, Nebraska, Montana, New York, Ohio, New Jersey, Maine, West Virginia and Missouri.

One Republican gain occurred in North Dakota where the Republican successor will be chosen to complete the unexpired term of the late senator Thompson, Democrat. The legislature of this state will also elect another United States senator to succeed Victor J. McCumber, whose term expires in March.

Three of the senators included in the above count have already been chosen. They are Aldrich of Rhode Island, elected to succeed himself; John Sharp Williams, elected to succeed senator Money, and Carroll S. Page, of Vermont, elected to succeed himself. The term of the late senator Daniel, of Virginia, expires this March, and the regular session of the Virginia legislature does not convene until 1912, either a special session will be called to elect his successor, or Claude A. Swanson, who is serving by appointment, will retain his seat until next year.

No successor will be chosen to the late senator McEnery, of Louisiana, until 1912. His seat at present being filled by J. R. Thomson, who was appointed by the governor.

Hitler Senatorial Contests.

While the people of a few of the states have indicated their senatorial preference through a direct primary, there are bitter contests being carried on in the majority of the states where the senatorial vacancies occur.

New York is a fair sample. It has been many years since the Democratic party of the Empire state has had a member in the upper house of congress, and there are a countless number of aspirants to the seat, which will be vacated by Chauncey M. Depew. They include Edward M. Shepard, William F. Sheehan, Martin W. Littleton and a host of others.

Even the new governor, John A. Dix, has been mentioned, and the fact that he has refused to endorse any of the candidates is considered significant.

On the Jersey Shore.

On the Jersey shore, however, the situation is slightly different. Here Gov. Wilson has taken a hand in the fray and is urging the election of James E. Martin to succeed senator Kean. James Smith, of Newark, however, is making a strong fight. He represented his state in the senate many years ago, and has the support of many of the Democratic leaders.

In Massachusetts there is a strong fight to depose Henry Cabot Lodge, and he will have considerable difficulty in being reelected.

Maine will elect a Democrat to succeed the veteran Eugene Hale. The most likely candidate is Charles E. Johnson, of Waterville.

The successor to senator Aldrich, of Rhode Island, who has announced that he will retire with the expiration of his term, will probably be Henry F. Lippitt. There are a few leaders, however, who believe that Aldrich will

change his mind and announce his candidacy at the eleventh hour.

In Connecticut, George P. McLean, former governor, has entered the race against senator Morgan G. Bulkeley, who desires to succeed himself.

West Virginia probably will choose Clarence Watson, a wealthy coal man, or Henry Chassey Davis, who has had service in the senate, as a Democrat to succeed Nathan B. Scott, Republican.

Georgia Has a Fight.

The death of Alexander S. Clay will precipitate a senatorial contest in Georgia. By the primaries, held some months ago, Florida selected ex-congressman Broward to succeed James T. Taliaferro. Broward is dead and no choice for the vacancy has been made. Tennessee may send to Washington one of three men—James B. Frazier, who now ably represents the state in the senate; Charles T. Cates, or Jacob M. Dickinson, the latter secretary of war.

Mississippi has elected John Sharp Williams. He will succeed Hernando D. Money, the minority leader of the senate. Texas will continue to be represented by Charles A. Culberson.

Missouri has selected James T. Reed, of Kansas City, as senator in the place of William Warner, Republican, and he will be elected by a Democratic legislature.

Indiana has named John W. Kern as the Democrat who shall succeed Albert J. Beveridge, the progressive Republican.

Editor May Be Senator.

Ohio has a number of Democrats from whom to make a choice as the successor of Charles Dick Republican. These include John R. McLean, proprietor of the Cincinnati "Enquirer," Atlee Pomeroy and Edward J. Hanley. The last named is said to have the best chance.

Michigan has chosen congressman Charles E. Townsend, a Republican, to succeed Julius C. Burrows.

Wisconsin will return senator Robert M. La Follette, Minnesota, Moses E. Clapp, and North Dakota, Porter J. McCumber.

Iowa has filled the vacancy occasioned by the death of Jonathan P. Dolliver in the person of Lafayette Young, editor of the Des Moines "Capital."

There is reason to believe that the relations between Mr. Young, who is a standpater, and senator Cummins have improved, and it would surprise no one here should Cummins agree to Young's election. In the case Mr. Young should not be elected, it is expected the honor will go to Harvey Lathrop, editor-in-chief of the Des Moines "Register and Leader."

The Lineup.

The states to be represented by Republican senators in the sixty-second congress total 26, giving 40 senators. California, Pennsylvania, Rhode Island, and are as follows:

California.	New Hampshire.
Connecticut.	North Dakota.
Delaware.	Pennsylvania.
Idaho.	Rhode Island.
Illinois.	South Dakota.
Iowa.	Vermont.
Kansas.	Washington.
Massachusetts.	Wyoming.
Maine.	
Minnesota.	

Democratic Senators.

States to be represented by Democratic senators in the sixty-second congress total 16, or 30 senators. They follow:

Alabama.	Mississippi.
Arkansas.	Missouri.
Florida.	North Carolina.
Georgia.	Oklahoma.
Indiana.	South Carolina.
Louisiana.	Tennessee.
Maryland.	Texas.
Virginia.	

Where Honors Are Equal.

The states to be represented by one Democrat and one Republican senator in the sixty-second congress total 11, and follow:

Colorado.	Nevada.
Kentucky.	New Jersey.
Michigan.	New York.
Montana.	Ohio.
Nebraska.	Oregon.
	West Virginia.

Mrs. E. Guyon, of Las Cruces, is visiting Mrs. R. H. Paulkner, 804 North Kansas street.

BLOOD DISEASES CONTAGIOUS TROUBLES

Contagious Blood Poison more thoroughly permeates the system than any other disease. Its infectious virus contaminates every corporeal and tissue of the circulation, and for this reason its symptoms are of a varied nature. When it enters the blood it is but a short time until the mouth and throat begin to ulcerate, the skin becomes spotted, rashes and eruptions appear on the body, sores and ulcers break out, the hair falls, and frequently nails on hands and feet thicken and come off. Mineral medicines which simply shut the poison up in the system should be avoided, for when such treatment is left off the old disease will break out again, often worse than before. S. S. S. cures Contagious Blood Poison permanently, and it does so because it thoroughly purifies the

blood. S. S. S. goes into the circulation, and drives out the last trace of the destructive germs, adds richness and vigor to the circulation and

allows it to nourish the diseased portions of the body back to health. S. S. S. is purely vegetable, being made entirely of roots, herbs and barks, without a particle of mineral, and its vegetable ingredients always hasten the cure by toning up the stomach and digestive members. Home Treatment book and any medical advice free to all who write. THE SWIFT SPECIFIC CO., Atlanta, Ga.
